

I have COVID (regardless of vaccination status)

Notify Medical@Broomstones and other close contacts

I have symptoms

I do NOT have symptoms

Date of Symptom onset is Day 0.  
ISOLATE for 5 days, wearing a mask if you must be around others in the home.

Date test was PERFORMED (not necessarily resulted) is Day 0.  
ISOLATE for 5 days, wearing a mask if you must be around others in the home.

Towards the end of the 5-day isolation period perform a rapid antigen test.  
Collect the test sample only if you are fever-free for 24 hours and your symptoms have improved.

Rapid test positive

Rapid test negative

ISOLATE for another 5 days, wearing a mask if you must be around others in the home.

After 5 completed days in isolation, you may end isolation and return to curling and coming to the club if over the last 48 hours you have not had a fever or any symptoms or your symptoms have greatly resolved without medication. **Continue to always wear a mask on and off the ice and refrain from broomstacking and socializing for 5 additional days.**
